

About the Trainer

Nirmal Rabari

Professional Summary

Nirmal Rabari is an accomplished AI Trainer, Cybersecurity Consultant, Digital Transformation Advisor, and Director of NMR Infotech Pvt. Ltd., bringing over seven years of experience in technology consulting, training, business transformation, and innovation.

He has successfully trained more than 3,000 students, interns, entrepreneurs, professionals, and business leaders across diverse domains including Artificial Intelligence, Prompt Engineering, Cybersecurity, Digital Transformation, Digital Marketing, Entrepreneurship, and Workplace Technology Adoption.

His expertise lies in simplifying complex technologies into practical, easy-to-understand concepts that enable learners to quickly apply knowledge in real-world environments.

Nirmal's training methodology emphasizes experiential learning through live demonstrations, practical assignments, real-world projects, case studies, and collaborative workshops. His objective is not only to teach technology but also to develop industry-ready professionals equipped with future-focused skills.

Professional Experience

-

About NMR Infotech Pvt. Ltd.

NMR Infotech Pvt. Ltd. is a technology consulting and digital transformation company dedicated to helping businesses, startups, educational institutions, and professionals leverage technology for growth and innovation.

Core Service Areas

- Artificial Intelligence Solutions
- Cybersecurity Consulting
- Website Development
- Software Development
- Cloud Solutions

- Digital Marketing
- Business Automation
- IT Consulting
- Corporate Training
- Startup Technology Support

Organizational Impact

- 200+ Websites Delivered
 - 1,500+ Interns Engaged and Trained
 - Multiple Industry Projects Executed
 - Training Programs Conducted Across Educational and Corporate Institutions
-

Areas of Expertise

Artificial Intelligence & Emerging Technologies

- Artificial Intelligence Fundamentals
- Generative AI Applications
- ChatGPT
- Gemini
- Claude
- Microsoft Copilot
- Prompt Engineering
- AI Productivity Systems
- AI Adoption Strategies
- Responsible AI Practices

Cybersecurity

- Cybersecurity Awareness
- Secure Digital Practices
- Information Security Fundamentals
- Cyber Risk Management

Digital Transformation

- Business Process Automation
- Technology Adoption
- Digital Workflows
- Productivity Enhancement

Professional Development

- Communication Skills
 - Workplace Readiness
 - Career Development
 - Entrepreneurship & Innovation
-

Proposed Training Methodology

The proposed AI Career Launchpad Program will follow a highly practical and implementation-focused approach.

Learning Model

10% Theory

Participants understand key concepts and foundations.

30% Demonstration

Trainer-led walkthroughs and live examples.

60% Practical Implementation

Hands-on activities, exercises, assignments, and projects.

Training Techniques

- Live Demonstrations
 - Guided Practice Sessions
 - Peer Learning Activities
 - Real-World Business Use Cases
 - Group Discussions
 - Project-Based Learning
 - Capstone Development
 - Career Coaching Sessions
-

Expected Learning Outcomes

Upon successful completion of the program, participants will be able to:

- Understand Artificial Intelligence fundamentals

- Effectively use ChatGPT, Gemini, Claude, and Copilot
 - Apply Prompt Engineering frameworks
 - Improve productivity using AI tools
 - Create AI-assisted reports, presentations, and communications
 - Develop AI-powered workflows
 - Build professional portfolios
 - Enhance resumes and LinkedIn profiles
 - Demonstrate practical AI competencies through capstone projects
 - Improve employability and workplace readiness
-

Why Nirmal Rabari

- Industry Practitioner and Trainer
 - Strong Technical and Business Background
 - Proven Experience Training 9000+ Learners
 - Expertise in AI Adoption and Transformation
 - Hands-on Learning Approach
 - Corporate and Academic Training Experience
 - Ability to Simplify Complex Technologies
 - Focus on Employability and Real-World Outcomes
-

Closing Note

Artificial Intelligence is rapidly transforming industries, job roles, and business processes. The proposed AI Career Launchpad Program aims to bridge the gap between academic knowledge and industry expectations by equipping participants with practical AI skills, productivity techniques, and career readiness capabilities.

I look forward to collaborating with Krishna Rungta Social Impact Foundation in creating meaningful impact and empowering youth through technology-driven skill development.

Warm Regards,

Nirmal Rabari
